AHRIF HAJJIE CRUZ

+63 969 170 7887 | cruzahrifhajjie@gmail.com | General Trias, Cavite

PROFESSIONAL SUMMARY

QA Tester with 6 months of hands-on experience in manual software testing of web-based HRIS applications. Experienced in functional, regression, smoke, exploratory, and UAT testing, including test case development, defect reporting, and retesting. Skilled in Jira, Microsoft Excel, and Agile/Scrum workflows, with foundational knowledge of Playwright and TypeScript for test automation.

KEY HIGHLIGHTS

- 6 months of hands-on experience in Quality Assurance and Manual Software Testing
- Experienced in validating business requirements and system behavior against expected results
- Skilled in identifying, documenting, tracking, and retesting software defects using Jira
- Experienced in testing end-to-end business processes across multiple HRIS modules
- Strong attention to detail in test execution, defect investigation, and test documentation
- Experienced in collaborating with Business Analysts and Developers to clarify requirements and investigate issues
- Familiar with Agile/Scrum development and QA processes

PROFESSIONAL EXPERIENCE

QA Tester | DAI – Quezon City **February 2026 – August 2026**

- Executed manual testing across multiple HRIS modules to validate functionality, business requirements, and expected system behavior.
- Developed and executed test cases based on business requirements and system specifications, covering positive and negative test scenarios.
- Performed functional, regression, smoke, exploratory, and UAT testing.
- Identified and documented software defects using JIRA with detailed reproduction steps, expected results, actual results, and supporting evidence.
- Retested resolved defects and verified fixes before defect closure or status updates.
- Collaborated with Business Analysts and Developers to clarify requirements and investigate reported issues.
- Validated application behavior against BRD, RTM, and defined business requirements.
- Performed end-to-end testing of business processes across different HRIS modules.
- Utilized Playwright Codegen to record and support automated test workflows, gaining hands-on exposure to browser automation and validating web application behavior.

IT Intern / OJT | ETIQA Philippines **February 2025 – May 2025**

- Led a small team in automating business reports and coordinating task assignments during OJT.
- Developed Excel VBA automation that reduced manual reporting work by 30%.
- Collected, cleaned, and validated datasets to ensure accurate and consistent business reporting.

TECHNICAL SKILLS

- Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, UAT
- Test Documentation: Test Cases, Test Scenarios, Test Scripts, Test Evidence, Test Reports
- Defect Management: Defect Identification, Bug Reporting, Bug Tracking, Retesting
- Tools: Jira, Microsoft Excel, Microsoft Teams, Visual Studio Code
- Automation: Playwright, TypeScript (Basic)
- Methodologies: Agile/Scrum, SDLC, STLC
- Requirements: BRD, RTM, Requirements Validation

CERTIFICATIONS & AWARDS

- Best Innovative Thesis Award – STI College Alabang (2025)
- Comprehensive Software Testing Bootcamp – Udemy (2025)
- Agile & Scrum Fundamentals Training (2025)
